STUDIO

A Prototyp& é um estúdio de slow-design e arquitetura brasileiro baseado em São Paulo, cuja sensibilidade é informada pelo conhecimento de técnicas de fabricação, respeito pelos materiais e olhar contemporâneo. Refinou seu ofício na serralheria elaborada - metal junto a madeira, minerais e têxteis. Em sua prática, costuma reunir técnicas tradicionais com processos de tecnologia para criar peças e espaços únicos.

Fundada em 2014 pelo arquiteto e designer Felipe Protti, a Prototyp& cria projetos de arquitetura, interiores, objetos e móveis.

A Prototyp& e o ProttiStudio atuam em conjunto para desenvolvimento de projetos de arquitetura, interiores e mobiliário especial.

Vendas, entregas e projetos para todo Brasil.
